

Architectural Foundation of San Francisco
Kirby Ward Fitzpatrick Prize

In honor of San Francisco architect Kirby Ward Fitzpatrick (1935-1988). Kirby designed among other things, the Peralta Elementary School in Oakland with Dan Solomon, which was published in *Progressive Architecture*. During the time his office was at 447 Sutter Street, he also designed many private homes including one in St. Helena, which was published in *Architectural Record Houses*.

The Prize

Awarded annually by the Architectural Foundation of San Francisco (AFSF) to a small (5 professionals or less) San Francisco architectural firm for design excellence demonstrated through five (5) submitted projects. The projects submitted must be solely the work of the small firm – no joint venture or collaborative projects are allowed.

5x5 – The Requirements

Any firm that meets the requirements may submit 5 projects for consideration.

5 person (professionals) firms or smaller
5 million dollar construction budget maximum / project
5 years or less from date of completion
5 hundred word written statement
5 dollar entry fee

Prize and Jury

\$15,000 awarded by a jury of 5 design professionals.
